Driver Charged Following Accident

A 28-year-old Roscommon man was arrested by Crawford County Sheriff deputies following a single car accident last Tuesday, September 12. He was scheduled to be arraigned in 83rd District Court Tuesday, Sept. 19, in connection with a charge of operating a vehicle while under the influence of liquor, transporting open intoxicants and driving with an expired registration.

The passenger in the car, a 21-year-old man from Roscommon, was also expected to be arraigned in connection with a charge of possession of open intoxicants in a motor vehicle.

Sheriff deputies said that the car was driving northbound on West Higgins Lake Drive at a high rate of speed when he lost control striking a tree on one side of the road and spinning around 1½ times before coming to rest facing southbound.

The driver was transported to Mercy Hospital by the Crawford County Ambulance Corps where he was treated for minor injuries. The passenger was not injured.

Mercy Hospital Receives \$50,000

Congressman Bill Schuette has announced that Mercy Hospital in Grayling will receive a grant for \$50,000 from the Dept. of Health and Human Services.

"I am very pleased that Mercy Hospital will receive this grant, which will be used for the planning and implementation of a program to provide high quality care for Medicare beneficiaries," said Congressman Schuette.

"In a letter I wrote to the Dept. of Public Health, I talked about the work being done at the hospital. I understand that the people at the Dept. of Health and Human Services were impressed by the fine work being done at Mercy Hospital, and this grant recognizes that," said Schuette.

Golf Benefit to Help Injured Harwood Boy

A golf scramble to benefit the family of injured Jonathan Harwood, of Roscommon, will be held at Burning Oak Country Club Saturday, Sept. 23.

Jonathan, 17, received a severe head injury April 15 in Missouri when a pick-up driving on the wrong side of the road struck his car. The other driver was killed.

Jonathan was hospitalized for six months in Missouri. He returned to his home in Roscommon Sept. 10 after area residents helped supply an ambulance to bring him back. Jonathan is unable to walk, speak, or eat. Rehabilitation from the injury could be a life-long battle.

Hanson Hills Names Recreation Director

Dan Wyers of St. Ignace has been hired by the Grayling Recreation Authority (GRA) as Hanson Hills' new recreation director. The announcement was made by GRA president, Pauline Petrosky, on Sunday, September 17. Wyers will begin work during the first week in October.

Wyers is a graduate of Northern Michigan University in Marquette with a Bachelor of Science degree in Recreation Administration and a minor in Business Administration. He served his internship at a ski lodge in the Marquette area. Wyers has experience in coaching, computers, and community education.

From 1982 to 1984 Wyers worked as program coordinator for the St. Ignace area schools. Wyers left St. Ignace in 1984 to accept the position of assistant recreation director with the Grosse Pointe recreation program. Petrosky said Wyers made this career move in order to gain administrative and fiscal experience to accompany his experience in program planning. She said it was always Wyers intent to return to the north. In 1987 Wyers was promoted to recreation director at Grosse Pointe.

His experience and his interest in our community as well as wanting to serve in this position has renewed the GRA board's excitement for the future of Hanson Hills," said Petrosky.

The GRA received 42 applications for the position of recreation director and interviewed five persons.

Conservation Groups, Military Reach Compromise Camp Grayling Laser Test Area Reduced

Tuesday in Lansing the Department of Military Affairs announced changes to a military laser rangefinder testing program scheduled to begin this week at Camp Grayling.

The changes are part of an agreement between the Guard, Michigan United Conservation Clubs, The Michigan Council of Trout Unlimited, and Anglers of The AuSable. In return for the modifications to the testing program, the three recreational organizations agreed not to attempt to halt this rangefinder testing project through legal action.

The changes announced in the testing project include:

- an 85% reduction in the Camp Grayling land restricted because of the test. Most of the test will be conducted within a fenced impact area, already placed off-limits to hunting by a DNR Closure Order. The test will necessitate the closing off of only an additional 1700 acres of Camp Grayling land. During periods of the test not involving the laser rangefinder, the test will not restrict public access to the 1700 acres.

- a modification of aircraft test flight corridors to keep the low level portion of aircraft flights over Camp Grayling. As previously planned, aircraft will observe all FAA regulations and restrictions when outside Camp Grayling's borders. Plans for test jet aircraft flights remain unchanged; one or two aircraft per day, flying a maximum of two one-hour missions per day, for 10 days. A single helicopter will fly similar one-hour missions.

- a toll-free telephone message system to inform the public of when the testing will restrict access to the 1700 acres. The testing schedule will be available by dialing 1-800-628-5820. The new system will be operating before access is restricted.

- restrictions in public access necessitated by the test will not begin until at least Wednesday, September 20.

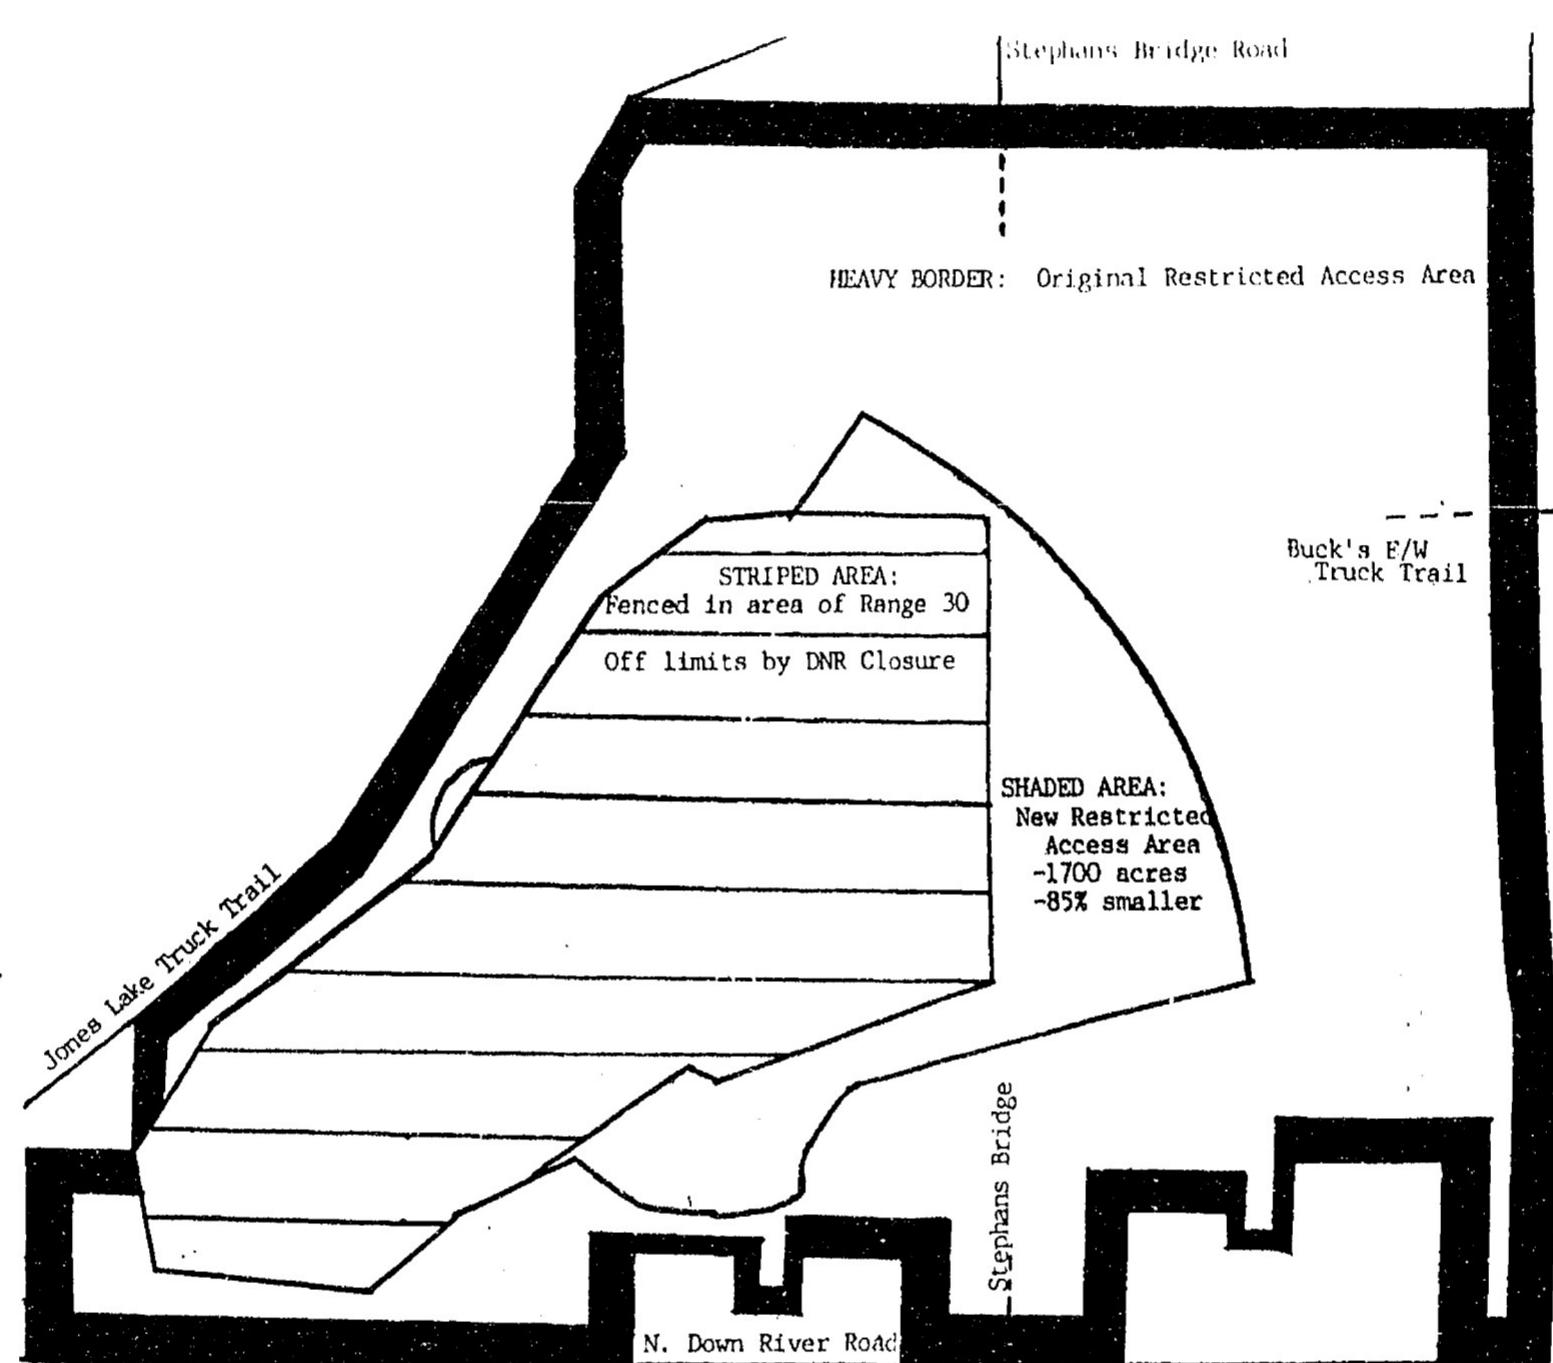

Prior to beginning the testing program a 60-page "Environmental Assessment" went through a public comment period, as required by law. While the analysis found, "no significant environmental impact", public comment on the document expressed concern over the land use restrictions during the small game and archery season. The changes announced are in response to that public concern.

According to Major General Vernon J. Andrews, Director of The Department of Military Affairs, "While most military facilities are fenced and the public excluded, the great majority of Camp Grayling has remained open to the public. I am committed to continuing that policy."

"Common sense safety precautions require us to close off those areas of the camp in which we are conducting military activities. But as soon as the military activities are completed we open the area back up to public use," said Andrews.

"In opening and closing large tracts of land, in some cases daily, there are some trade offs. We can close off just the land we are using, but that takes a lot of time. The 'borders' run through the middle of the woods and the time involved in going cross-country to post these imaginary borders open or closed means we must start to close down the area sooner and take longer to reopen it. This means the public has to stay out longer," said General Andrews.

County Forest Fires Down for '89 Summer

The Department of Natural Resources' fire fighters extinguished 34 fires during the summer of 1989. This number is down from 1988.

"It was a quiet summer," said DNR Fire Officer Duane Brooks. "Most fires were started by debris burning."

In 1988, 39 fires burned 322.2 acres compared to 82.4 acres this summer.

Brooks said nearly all the fires this summer were started by people who had obtained burning permits, but failed to take the proper precautions such as clearing around the area to be burned and making sure that an ample water supply was available.

Ten fire related citations were issued by the DNR and \$813.92 suppression costs were collected for fires started because of neglect.

"All in all it was a good year," said Brooks. "The only area of concern for area fire fighters involved the seven fires that were attributed to arson. Brooks said this was an unusually high number."

"Last year we did not have any incendiary fires," he said.

The 1989 fire season does not end until there is snow on the ground.

MDOT Engineer To Outline Changes Ahead for Grayling

The Grayling Regional Chamber of Commerce will be holding a "Lunch & Issues" program with the topic of upcoming transportation changes slated for Grayling.

The guest speaker for the Thursday, Sept. 21, noon program at Chief Shapenagon's Hotel will be Thomas Hilberg, from the Michigan Dept. of Transportation.

Hilberg is a Project Design Engineer and has been a part of MDOT's team for nine years. He is responsible for the supervision of the MDOT Alpena District Design Unit, who prepare design plans and develop construction projects in the area.

Hilberg will address the MDOT 12 year plan and discuss "How Grayling Fits Into The Transportation Plan For Upper Michigan."

The fee for the luncheon is \$6 for Chamber members and \$7.50 for non-members. Reservations are needed and can be made by calling the Chamber office, 348-2921.

Straw Named New Director Of High School Library Center

By Nancy Lemmen

The Crawford AuSable School District has hired Susan Straw as the new director of the Graling High School Instructional Materials Center (Library).

Before taking this position with the

CASD, Susan was the librarian for the Tahquamenon Area Schools Library and the Newberry Public Library.

She has lived 11 miles west of Grayling for the past 11 years with her family, husband Robert, and daughters Stacy and

Tricia. Susan enjoys reading, baking, and activities with her children. The Straws have attended St. Mary's Church in Grayling since they moved to the area.

Susan earned her undergraduate degree in education from Michigan State

University and went to Central Michigan University for graduate work in library science.

Susan Straw replaces Kathy Ponstein, who has accepted the high school librarian position in Kalkaska.

County Ambulance EMT's Honored by Medical Board

Outstanding emergency medical technicians in Crawford County were honored by the Crawford Medical control Authority board during a luncheon in their honor on Tuesday, Sept. 12, at Mercy Hospital/Grayling. Attending the luncheon were EMTs from the five am-

bulance services located in Crawford County. Honorees were nominated by the directors of the various ambulance services in the county.

Certificates of Achievement in recognition of outstanding performance were presented by Dr. Alan Bersted, Director of Emergency

Medicine at Mercy Hospital and Project Medical Director of the local Medical Control Authority Board. Honored were Paul Owens of the Frederic Ambulance Service; Robert Kelly of the Crawford County Ambulance Corp; James Kalasz of the South Branch Township Ambulance Corp; Gary Parkinson of the

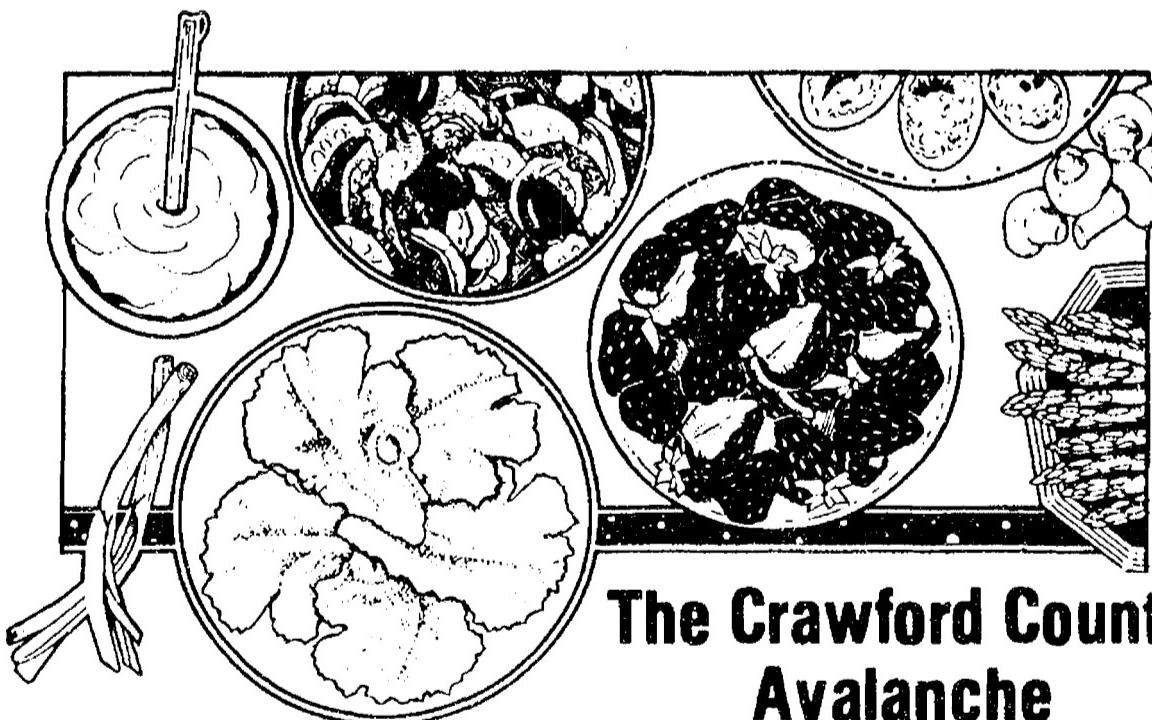

Beaver Creek Ambulance Corp; and Dave Hodges of Northern Michigan Emergency Medical Services.

The awards luncheon was a kickoff to Emergency Medical Services Week, Sept. 17-23, a special observance by the American College of Emergency Physicians.

Opinions

Let's Talk About It

By Joe Murphy

First off, I want to apologize to the V.F.W. for not giving them the credit for cleaning up the Pere Cheney Cemetery. I made a stupid mistake and I'm sorry. You know it's sad to walk through a cemetery and see all the unmarked graves. Some of the stones have been destroyed by vandals, while others, perhaps, never had anyone to care enough to have one placed. I wonder if there are enough people in Crawford County, who are interested in our past, to help see that every grave that can be identified has at least a simple bronze plate. They were our early settlers, the lumberjacks and perhaps, our forefathers. It is a project that would require a lot of research and just plain hard work. Do you think it could and should be done? If enough people think so, perhaps, we could do it. If you could help with time or funds, give me a call, 348-8308.

I guess no one has any doubt that summer is over. Schools are open and that means we should be extra careful in our driving. Little children can forget to be as cautious as they should be. So, let's be extra watchful for them. Now, that fall is here and hunting season is coming up, I find myself wanting to head for the woods, to see how things are shaping up. Have seen a few birds but not many. Guess the birds are never going to come back like they were, in the old days. It

would be nice to be able to flush fifteen or twenty birds, in a short hunt, again.

When I was a kid up on the old farm, I liked to see a rainy day, now and then. I could depend on old Charley Post stopping down by the gate and tooting the horn on his old model "A" Ford. I would grab my old cane fish pole and a can of worms and we were off, to Bradford Lake, for a mess of blue gills. Charley had the use of an old wooden row boat, that was always tied up by the old sawdust pile. Charley seemed to know just where the fish were. He had to line up with a certain tree on one side, and something else here and there, before we anchored, but we always caught a nice mess of fish. I tried to find the same spot, after Charley passed away, but didn't have any luck. We always had a good time, for Charley had some good stories to tell, even when the fish weren't biting. I guess, if I had blue gills and brook trout to eat, I would never miss any of the other fish.

Have you gotten down to the museum yet to see the scale model of the Skingley home? It is really something to see. The family deserves a lot of credit for allowing, all of us, to share in the beauty of it. While you're there why not pick up a copy of the book "It Seems Like Only Yesterday." I'm sure you want to help keep the museum going.

Sales tax vote confusing

IT TOOK A WHILE, but the State Board of Canvassers finally agreed on the exact wording of the two sales tax increase issues to go before voters in a few weeks.

Confusing? More than a little.

Two proposals will be decided in a special election Nov. 7. They will be the only statewide questions to be decided; no statewide candidates and few local candidates will be elected at the same time, and very few local issues will be up then, either.

For all practical purposes, the state sales tax increase will be isolated in the voting booth.

One proposal would raise the sales tax from four to four-and-a-half cents; the second would raise the tax from four to six cents.

If both pass, the one with the higher number of votes will win.

If neither passes, then the status quo remains. Sales tax will remain at four cents.

For the record, here's the wording the ballot:

* * *

PROPOSAL A:

"A proposal to increase the sales/use tax from 4 cents to 4½ cents per dollar and constitutionally dedicate funds for local schools. The proposed constitutional amendment would:

"1. Constitutionally dedicate to schools:

"a. 2 cent increase in sales/use tax.

"b. Currently statutory revenue sources, including lottery profits and some cigarette/liquor taxes;

"C. Increased share of existing sales/use tax (51% to 75%) to substantially replace annual school appropriation;

"2. Reduce property taxes in most school districts. Replace school taxes with permanent statewide millage (9 mills on residential/farm; 14 mills on businesses) plus non-voted local millage not subject to voter rollback. Limit voter approved increases to 4 mills.

"3. Set per-pupil funding guarantees subject to change by law requiring two-thirds vote.

"4. Activate increased statutory penalty to deny all non-guaranteed state funds to schools not adopting core curriculum and improvement plans."

"Should this proposal be adopted?"

* * *

IN JUST READING the wording of the ballot proposals (limited to 100 words by law), it's obvious this is not a simple question. It is much more than simply raising the sales tax by 12% percent or 50 percent, which is what a half-cent or two-cent hike means.

There is fundamental tinkering with school financing in these amendments, as well as some pretty basic questions of local property taxation.

Obviously, the questions deserve much study. There's not much time between now and Nov. 7.

Unfortunately, only the highly-motivated voter is likely to turn out for a single-question statewide election. That's probably why the movers and shakers in Lansing planned it like this.

Hopefully the electorate will be informed -- and motivated -- by Nov. 7.

If not, the inclination will be to just vote "no" on everything.

PROPOSAL B:

"A proposal to increase the sales/use tax from 4 cents to 6 cents per dollar, reduce school property taxes, set permanent school operating millages not subject to

any voter renewal, and constitutionally dedicate funds for local schools. The proposed constitutional amendment would:

"1. Constitutionally dedicate to schools:

"a. ½ cent increase in sales/use tax.

"B. Current statutory revenue sources, including lottery profits and some cigarette/liquor taxes;

"C. Increased share of existing sales/use tax (51% to 68%) to substantially replace annual school appropriation;

"2. Distribute dedicated funds to school districts as provided by law.

"3. Activate increased statutory penalty to deny 100% of state funds to schools not adopting core curriculum and improvement plans.

"Should this proposal be adopted?"

PROPOSAL C:

"A proposal to increase the sales/use tax from 4 cents to 6 cents per dollar, reduce school property taxes, set permanent school operating millages not subject to

Letters to the Editor

Reader Says Healthy People Take Precedence Over Georgia Pacific's Healthy Bottom Line

Open Letter to Joe Newman and the executives of Georgia Pacific:

local residents and a neighborhood action group in November, 1988.

In view of the recent train derailment in Midland and the truck accident in Gaylord while both vehicles were carrying toxic substances, we think it's time for Georgia Pacific to tell the people of Crawford and Roscommon counties about the truck and train loads of chemicals that will be

transported out.

It's most interesting to note that wood products manufactured by Georgia-Pacific carry a warning label that states:

"WARNING: Irritant."

This product is

manufactured with low

emitting urea for-

maldehyde resins and

may release for-

maldehyde vapors in

low concentrations.

Formaldehyde can be

irritating to the eyes

and upper respiratory

system, especially to

susceptible persons

such as those with

allergies or

respiratory ailments.

Use with adequate

ventilation. If sym-

ptoms develop consult

your physician."

If formaldehyde is

harmless, why do

products containing

formaldehyde carry a

warning label? If you

build your for-

maldehyde plant,

should the counties in

proximity post war-

ning billboards at the

county lines warning

people that the air con-

tains formaldehyde

and they may need a mask if they have allergies or respiratory ailments?

What about the air should there be an accident or spill or malfunction at the plant? There have been 3 Dow Chemical train derailments in the last 9 months. All 3 trains carried toxic substances!

California and New Mexico have taken steps to limit the use of formaldehyde in those states.

A community (and state) that wants

to ensure that it remains clean and safe

from toxic substances

doesn't allow industries that are

known to be producers or users of toxic sub-

stances anywhere near

their very fragile and

precious land, water,

air or children and

helpless animals. The

ecology of this land is

extremely delicate and

becoming more so with

each abuse that is

caused by men who

can't see beyond the

bottom line at the end

of the next quarter.

Grayling and Crawford County do not deserve another LULU! (Locally undesirable land use). And a shiny silver tank truck waving the American flag in a parade is not going to disguise the fact that formaldehyde is an unsafe chemical.

Crawford County has the 7th highest cancer rate in Michigan. We wonder about the rate of kidney disease, leukemia, birth defects and other related health problems and in the area. Unexplainable headaches, breathing problems and skin rashes might be traced to irritating pollutants in the air or water.

Yes, Mr. Newman, we would like to openly discuss the facts. All the facts. Healthy people and a clean environment take precedence over Georgia-Pacific's healthy bottom line.

Fred and Martha made their grand entrance into the hall where their Grayling High School reunion was being held and no one noticed them at first.

"Oh God, this is embarrassing," Martha whispered to Fred. "Why did I buy a new \$129 dress if no one's even going to notice?"

"Didn't I tell you not to spend so much for a new dress?" said Fred.

"Who are you trying to impress anyways?" he asked suspiciously.

"Look, there are the Quipplehoppers," said a relieved Martha and she quickly pulled Fred over to them.

"Fred, Martha. You're a little late," said George Quipplehopper.

"Us GHS grads who still live in Grayling don't have an excuse for not making it to the reunion on time," said Veronica Quipplehopper. "What happened?"

"Oh, Martha wanted to make a grand entrance in her new..." Fred started to say.

"Fred! Really now. You know I got a last-minute phone call," said Martha.

"Yea, from Betty. You two were plotting your grand entrances five minutes apart," said Fred. "Oh, look who's coming in the door now - what a coincidence." Fred and the Quipplehoppers laughed as Martha's face turned a little red.

"Over here Betty and Rudolph!"

Martha waved and directed them to come over. She didn't want them to go through the same em-

barcation she had gone through standing by the entrance and having no one greet her from the large crowd.

"Betty, you simply look mar-

velous in that new black dress," said Martha.

"That's the same thing you told

her this afternoon when you two

were trying dresses on," said Fred.

"Why are you telling her again?

Doesn't it count unless it's in front of..."

"Shush Fred! You're being silly again. Why don't you go get us some drinks," Martha said.

When Fred came back, Martha, Betty, and Veronica were tearing into Fifi Liftover.

"Look at how low her dress is cut, that's shameful," said Martha.

"Well, when you run around

with a man half your age, that's what happens," said Betty.

"Here's your drink," Fred said to Martha. "Honey, I would say Fifi's dress isn't cut any lower than the one you think looks mar-

velous on Betty."

"Fred, will you stop looking at

women and mind your own

business," said Martha.

"What do you mean she runs

around with a man half her age?"

asked George. "I thought she

married Stanley Liftover right af-

ter school."

Laser

Continued from page 1

"The other choice," added Andrews, "and the one we have chosen for 40 years, is to go out to the nearest major public road and close off our military access roads. By using these roads, we can drive quickly from barricade to barricade and minimize the time the land remains restricted. Since most of the recreational users enter Camp Grayling from these same military access roads and trails, it makes it easier for them to find out whether a particular area is open or closed."

"This was the problem we faced in deciding how to close off the portion of Camp Grayling needed for a safety area for the rangefinder testing. We chose to use the existing roadblocks the public was used to checking to see whether access was available to that area of Camp. This resulted in closing off a larger area than was required by safety considerations, but enabled us to quickly open and close it," Andrews continued.

The modified testing program now will only restrict access in that portion of the Range 30 Complex required by safety considerations. While this 1700 acres is much smaller, it will be much harder to close off and to communicate that restriction to the public. To minimize confusion, Camp Grayling will utilize a variety of signs and communications techniques.

Since the 1700 acres lies within Camp Grayling's Range 30 Complex and is used throughout the fall by Guard units, the area will still be closed on some weekends because of military training. This would have occurred regardless of whether the testing project came to Camp Grayling and such restriction has occurred every hunting season, for decades.

As in past years, no military training is scheduled during the firearms deer season.

The rangefinder test team will be operating out of an established Guard base camp located on North Down River Road, adjacent to the new M.A.T.E.S. complex. Test personnel will vacate this base camp by November 22. The base camp location is too close to North Down River Road to be legally used for hunting.

No weapons will be fired as part of these tests, but the lasers used as part of the rangefinder are not eye-safe and could cause damage if they strike your eye. These are low-power lasers, not weapons. They are potentially dangerous only to the eyes and not capable of burning even a piece of paper held directly in front of them, says the military.

Even though the laser is aimed into the sky, and is mounted five feet off the grounds, it could reflect off a test aircraft and might bounce back to earth. The area in which this reflection could occur, with enough strength to harm eyes, covers approximately 1700 acres. This "safety area" is immediately adjacent to the fenced in area on the Range 30 Complex located east of Jones Lake Truck Trail and north of North Down River Road and is shown on the front-page map.

For safety purposes, when testing is occurring, test personnel will wear special goggles and other persons (hunters, etc.) will not be allowed on these 1700 acres. This test equipment will be set-up in the fenced area of Range 30, which is permanently off-limits to the public under a posted DNR closure order.

Hubbard to Speak At New Rabbit Club

The next meeting of the Twin County Rabbit Breeders Association will feature Shelley Hubbard, Cooperative Extension Service 4-H Agent, who will speak on "How To Start A 4-H Club." Since many new clubs are organizing during the fall months, this is a timely subject, and should be very helpful to either prospective leaders or 4-H members.

The objectives of the 4-H program are to promote character building through participation in any of a wide variety of projects, and participating in group activities in an organized 4-H club.

At the August meeting several rabbit breeders from Kalkaska County were guests, and are expected to become new members. Next meeting: Frederic Twp. Hall Sunday Sept. 3rd - 2 p.m. Membership numbers

Dear Mom and Dad,

I would like to enroll in the Mercy Child Care Center. The teachers are really nice there. They teach us lots of things, let us play games and have fun. I could meet new friends and learn at the same time. Will you consider enrolling me in the pre-school or fulltime program? It's a great investment in my future.

Love,
Your Child

Soo's Press Sends Grayling Girls Back Home with a Loss

The Grayling girls basketball teams travelled to Sault Ste. Marie Saturday, Sept. 16, and were met by strong opposition.

The Varsity girls suffered under the Soo's press. The Soo

took a 14-point lead in the third quarter using the press and held that lead throughout the rest of the game, beating Grayling 59-44.

Grayling was leading the Soo at the end of the first quarter

and was only trailing

by two buckets at the end of the half, but a poor third quarter saw the Soo outscore Grayling 21-11. The fourth quarter was pretty even with Grayling scoring 17

points to the Soo's 18. Heather Stephenson and Michelle Burcham were high scorers with 10 points each. Other points were made by Melanie Ojala 9, Margarita Perez 6, Claudine Allen 3, and

Lisa Barber, Janet Bickford, and Nikki Trenary had 2 points each.

Seventeen fouls were called on Grayling for the game, compared to 5 called on the Soo.

"The differential of 17 to 5 did not serve to help the situation," explained head coach Howard Lehti. "In fact we were not into a one on one free throw situation until four minutes were left in the game."

"In all my years of basketball," he said, "I have never seen a team press as the Soo did for almost the entire game and not commit a foul. The Soo played the entire first half without being called for a foul."

Lehti said Grayling shot only 22 percent from the floor and rebounding just wasn't happening.

"We were getting one shot at the basket and that was it," he said. "The Soo is a

very good team," said Lehti. "We met a class act team and Saturday night they were better of the two teams."

Grayling travelled to Charlevoix on Tuesday and will be hosting Boyne City at home Thursday.

"We are capable of winning both ball games this week," said Lehti, "and we will have to win both games if we are going to stay in the race."

Mercy Day 1989 The Feast of Our Lady of Mercy

Catherine McAuley, foundress of the Sisters of Mercy, reached out with courage and love to the needy of her time. Her example and inspiration translate to present and future needs.

"In a rapidly shifting health care environment marked by complexity, competition, high technology and fragmented service, a compassionate, direct response to human need remains essential."

"What must be central in our service, regardless of future change, is that persons deserve quality care, that systems exist to serve human needs and that respect for the dignity of every person constitutes a fundamental principle of our action."

At Mercy Hospital/Grayling, the employees, physicians and volunteers are celebrating Mercy Day Monday, September 25 with a family dinner in our cafeteria. We thought it was appropriate to share our organization's vision with you.

Citizen of Year Nominations Being Sought

The Grayling Regional Chamber of Commerce is currently taking nominations for its annual citizen of the year presentation. Do you know someone in the Grayling area who goes "above and beyond the call of duty" to volunteer his/her time and efforts to promote Grayling or to aid a local charity?

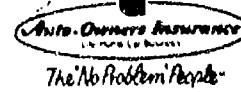

Please submit nominations in writing stating the nominee's name and community service accomplishments to the Grayling Regional Chamber of commerce at P.O. Box 408, Grayling, MI 49738. All nominations must be submitted no later than Monday, September 25th. The final selection will be made by the Board of Directors of the Grayling Regional Chamber of Commerce. The Citizen of the Year presentation will be made Friday, October 6th, at the chamber Ball at the Grayling Holiday Inn.

The last thing you need now is a problem with insurance that doesn't offer guaranteed home replacement cost coverage.

Insurance means 100% assurance, right? Wrong. Sometimes it doesn't. Although you wouldn't live in half of a home—that might be all the limits of coverage your present home insurance gives you. Auto-Owners doesn't agree with that. They believe that homeowners insurance should ideally protect and replace 100% of your home. Because anything less, isn't 100% protection.

The Guaranteed Home Replacement Cost Coverage is from your "no problem" Auto-Owners agent. Ask him if your home qualifies, and find out what 100% peace-of-mind is all about.

NOTICE OF PUBLIC HEARING ON INCREASING PROPERTY TAXES

**The Board Of Commissioners
Of The County Of Crawford**

Will hold a Public Hearing on a proposed increase of .67525 mills in the operating tax millage to be levied in 1989.

The Hearing will be held on Thursday, September 28, 1989 at 10:00 - 11:00 A.M. in the Commissioners Meeting Room - Crawford County Building, Michigan.

If adopted, the proposed additional millage will increase operating revenues from ad valorem property taxes 8.95% over such revenues generated by levies permitted without holding a hearing.

The taxing unit publishing this notice, and identified below, has complete authority to establish the number of mills to be levied from within its authorized millage rate.

Advice You Can Trust...

Dear Son,

Your mother and I have always tried to look out for your best interests. Several nights ago we planned something for ourselves that will be a great relief to you, also. We took care of our final arrangements by enrolling in a program called Forethought funeral planning.

We talked to a very nice counselor from a local funeral home who explained the advantages of prearranging before the need arises. The more he told us, the more obvious it became that funeral planning is the right thing to do.

The Forethought program has allowed us to select the exact services and merchandise we want and arrange to pay for them at today's prices. The peace of mind we've gained by relieving these emotional and financial burdens from you is so gratifying, that we want you to think about doing the same for your kids.

Please look into Forethought funeral planning, son. None of us knows when our time will come, but, now we can feel secure that when it does, we've left a most important gift to our loved ones.

We love you,

Dad

BLACKMER, CALKINS WED — Mr. and Mrs. Len Blackmer wish to announce the marriage of their granddaughter, Beth Blackmer, to Greg Calkins, son of Mary Ann and the late Raymond Calkins. The marriage took place on Aug. 12, 1989, with the immediate family in attendance.

Poet's Corner**Life's Winding Road**

*When starting down Life's highway,
In youth's, optimistic dreams
We find, to our dismay,
Life isn't always what it seems.*

*When we come to a stretch of road,
Where the going is pretty rough
We must learn to shoulder the load.
Till we reach the top of the bluff.*

*Sometimes the way is downhill,
And everything going so great
Then a flat tire or a spill
Sets us back to our former estate.*

*Though the road, in spots may be rough,
We should travel along with a smile
And be glad we've had strength enough,
To make our journey worthwhile.*

Bits of Talk

By Fay Boyce (348-7017)

On Friday, Sept. 8th, twenty-seven retired employees of Camp Grayling gathered at the camp Grayling Officers club for their annual luncheon. It was a great time to recall and talk about the old days at the camp. Mary Meredith, the club manager put on her usual fine luncheon spread. Ray Kehr, the former club manager, now retired, saw to it that all retirees were contacted and invited to attend. This is the sixth year the event has been held and every one seems to enjoy the chance to get together again. Joe Murphy, a camp retiree, was on hand to read a poem he had written for the occasion. The poem appears in his poetry column this week.

Harvest dinner at Michelson Methodist Church Tuesday September 26 from 5 - 7 p.m.

Jess and Betty Benett entertained a group of high school classmates at their home on Saturday evening, September 9. Visiting were Vic and Isabell Nielsen of Suttons Bay, Rich and Donna Sawicki of Gaylord, Pat and Roy Breitmeyer of Livonia and Hale, and Joe and Shirley Czarniak of Utica. All were

graduates of Utica High school, classes of '43, '44, and '45. Rich Sawicki and Jess were also members of the same band and played at various night spots in the Utica area.

It isn't very often that cribbage players come up with a perfect hand but Pearl Tucker had one a week ago while playing cribbage with friend, Betty Smith, who was visiting her. Pearl said this is her second one, the first one being in 1980 when she and her late husband, Al, were playing.

Betty Madsen, Ann Doty, Ruth Beckwith and Jackie Norcross were in Traverse City last Thursday where they lunched at the Trillium and then visited the Music House, an antique museum of radios, organs, and grand pianos. The tour lasts over an hour and is extremely interesting.

Millcreek near Mackinaw and saw the sights and stopped at Audles and had dinner.

Velma Lobdell of Lake Margrethe is moving to Texas at the end of the month to be

with her son and family.

Velma was honored at the COA—AARP dinner Sunday of which she is a member and volunteer for many years.

By Clara Sorenson
Roger Kesseler is our chosen honoree for 1989. He was born here in Grayling to Jerome and the late Loretta (Sorenson) Kesseler, both from the class of '31. He graduated from GHS in 1954 and married Phyllis Ziebell, '51, in 1957. He graduated from CMU in 1958 with a degree in accounting.

In 1959, Roger was employed by Dow Chemical Midland, to begin his career. He was named chief cost accountant of the division in 1969. In 1971, he moved with his family to Freeport, Texas, as chief cost accountant for the Texas division. In 1972 he was named controller of Texas division with added responsibility of division employer relations manager in 1975.

In 1979, Roger was returned to Midland as manager of operation analysis and consolidation in the corporate controller department. Two years later he became Controller. In 1984 he was elected a Vice-

President of Dow Chemical Midland. All of this in a span of 30 years.

He is involved in many worthwhile organizations at CMU and Midland. Roger and Phyllis have traveled around the world, combining the demands of travel on his job with the inclusion of vacation while visiting various places overseas. They have 3 daughters, Lisa, Lori, Maureen, and a son Mike. His brothers are GHS Alumni, George, '51, James, '59, Thomas, '65.

We are privileged to honor this young man who was recognized by CMU Alumni

Association in 1984. All of this brings to mind a business teacher we had at GHS. He was Earl Gierke, '28, who undoubtedly taught Roger the foundation of his career. P.S. Note who is President of the Class of '54.

at the Annual Alumni Dinner on September 30.

Next week you will see the rest of the story, 3 more class pictures and 3 more reunion tables at the dinner, which will be prepared by Jim Bourrie.

This GHS class of '54 is gathering around their classmate Roger Kesseler to observe their 35th Anniversary.

They have "class meetings" every year. Elmer Fenton is class sponsor. Frank Bond is superintendent pictured with his son, Jim. Joe Stripe is Principal. We welcome this class that will have their reunion

**TO THE GAS CUSTOMERS OF
MICHIGAN CONSOLIDATED GAS COMPANY**
The Following is Published by Direction of
the Michigan Public Service Commission in Case No. U-9098
NOTICE OF HEARING

On March 31, 1988, Michigan Consolidated Gas Company (MichCon) filed an application with the Michigan Public Service Commission (Commission) for approval of deferred tax accounting for its bond refunding costs.

MichCon is a Michigan corporation with principal offices located at 500 Griswold Street, Detroit, Michigan, and is engaged in the distribution and sale of natural gas to approximately one million residential, commercial and industrial customers, all within the State of Michigan.

MichCon represents that as a result of the settlement in Case No. U-8447, it was granted the authority to use Account 284 "Accumulated Deferred Income Taxes, Temporary," for items having a deferred tax effect greater than \$1,000,000 and to request, by March 31 of the following year, authority to use Account 283 for permanent deferral purposes.

MichCon represents that beginning in 1987, it began to amortize the expenses and premium paid for the early retirement, referred to jointly as "reacquisition costs," associated with the December 1986 reacquisition of the 13 1/2% series debt issued in February 1983, and the March 1987 reacquisition of the 10 1/2% series debt issued in May 1975. MichCon further represents that the reacquisition costs of these debt issues are amortized for book purposes over the life of the 9 1/2% replacement series issued in 1987.

For tax return purposes, MichCon represents that it deducted the 1986 and 1987 reacquisition costs on its 1986 and 1987 Federal Income Tax returns, respectively.

MichCon represents that during 1987, it provided deferred Federal Income Taxes on the reacquisition costs related to both the 13 1/2% series and 10 1/2% series in Account 284-86, "Accumulated Deferred Income Taxes, Temporary."

MichCon requests Commission approval, as provided for in the Uniform System of Accounts and the Commission's Opinion and Order in Case No. U-8447 dated September 30, 1986, to employ interperiod income tax allocation in the form of deferred Federal Income Tax accounting for the book tax timing difference related to the reacquisition costs which are currently included in temporary Account 283.

MichCon requests permission to credit Account 283, "Accumulated Deferred Income Taxes," in calendar year 1988 for the Federal Income Tax effect of the book tax timing difference resulting from the reacquisition costs. The offsetting debt would be to Account 284-86, "Accumulated Deferred Income Taxes, Temporary." MichCon proposes to credit Account 411-1, "Amortization of Deferred Income Taxes," as the reacquisition costs are expensed for book purposes in future years over the life of the replacement series. The offsetting debt would be to Account 283.

MichCon represents that generally accepted accounting principles, the Federal Energy Regulatory Commission's Uniform System of Accounts, and the Commission in its Order dated June 30, 1987 in Case

**... about your
Social Security**

On October 1, a new law goes into effect which requires you to cash your Social Security or Supplemental Security Income (SSI) check within one year, or it will be cancelled. At the present time, uncashed Government checks are good indefinitely.

In the future, all Government checks will carry the legend, "VOID AFTER ONE YEAR." This means that Government checks issued on October 1, 1989 must be cashed by September 30, 1990, or they will be cancelled. Old Government checks issued prior to October 1, 1989 must also be cashed no later than September 30, 1990, or they will also be cancelled.

The new law applies only to the timelimit for cashing checks. Entitlement to payment is not affected.

Any claim to replace a check must be made within one year from

the date the check was issued. If, for example, a check has been forged or contains an unauthorized endorsement, contact Social Security immediately. The Treasury Department cannot recover the proceeds of a Social Security check if a claim is not made timely. Notify Social Security also if a check is not received, or is lost or destroyed. A replacement check will be issued. However, if the original check shows up after a replacement check has been issued, it should be forwarded immediately to Social Security. Both of them cannot be cashed.

People who have direct deposit of their Social Security or SSI checks are not affected by this new law. It only applies to paper checks. To sign up for direct deposit, call Social Security, and have your Social Security number and bank account number ready. You can handle it by phone! Call 1-800-2345-SSA.

The Traverse City Social Security office is located at 1111 E. Front St. Business hours are 9:00 - 4:30, Monday through Friday, except national holidays.

Thank You

To all my wonderful friends that came to the AARP potluck dinner to wish me happiness, and a safe trip to my new home. Thank you for the lovely corsage, gifts and prayers. You have all been so kind and thoughtful. I will miss each of you.

**Notice Of Air Pollution Comment Period
And Public Hearing**

The Michigan Air Pollution Control Commission is holding a public comment period until October 11, 1989 and a public hearing on October 17, 1989 to afford all interested citizens the opportunity to comment on the Commission staff's proposed conditional approval of a Permit to Install application submitted by GEORGIA-PACIFIC RESINS, INC. for a formaldehyde process, proposed for location at 4 Mile Road, Grayling, Michigan. It has been preliminarily determined that the formaldehyde process will not violate any of the Commission's rules nor the National Ambient Air Quality Standards.

During the evaluation of the Best Available Control Technology for these pollutants, the environmental impact of the following toxic air contaminants was considered: formaldehyde and methanol.

Copies of the Commission staff's analysis and proposed permit conditions are available for inspection at the following locations:

ROSCOMMON: Air Quality Division, Department of Natural Resources, 8717 North Roscommon Road (Phone: 517-275-5151).

LANSING: Air Quality Division, Department of Natural Resources, Stevens T. Mason Building, 4th floor, 530 West Allegan (Phone: 517-373-7023).

All persons are encouraged to present their written views on the proposed permit action. Written comments should be sent to the Department of Natural Resources, Air Quality Division, P.O. Box 30028, Lansing, Michigan, 48909, to the attention of the Permit Section Supervisor. All statements received by October 11, 1989 will be considered by the Commission.

The public hearing will be held during the regular monthly meeting of the Michigan Air Pollution Control Commission on Tuesday, October 17, 1989, starting at 9:00 a.m., at the Harley Hotel, 3800 Dunckel Road, Lansing, Michigan.

WINNERS CIRCLE

BY LAURIE KIPP

In August, the Michigan Lottery reported that jackpot prizes won in Lotto games had passed \$1 billion. This column responds to recent reader questions on Lotto jackpots.

Q. How long has Michigan had Lotto games?

A. Advance of jackpot prizes past \$1 billion in the August 23 drawing occurred just two days short of the fifth anniversary of the first drawing on August 25, 1984.

Q. How many players are being jackpot winners?

A. The August 23 winner was the 378th to win or share a jackpot prize. Of these, 85 won jackpot shares of less than \$1 million and 107 others won between \$1 million and \$2 million. Ten have won prizes of more than \$10 million.

Q. What's been the average won?

A. Wins have averaged just over \$2,645,000 to provide annual pre-tax payments of about \$132,000 for 20 years.

Q. What's been Michigan's biggest jackpot?

A. The largest jackpot, \$31.5 million came in September 1988, after seven consecutive rollovers. It was shared by two winners. This followed a \$28.9 million jackpot shared by five winners after six rollovers in January 1988.

Q. Why doesn't Michigan have more big jackpots like those we hear about in other states?

A. These high jackpots usually occur in more populous states with higher odds games where more frequent rollovers keep the jackpot growing along with player interest.

Q. Are Michigan's Lotto sales declining?

A. Through the first ten months of the current fiscal year, Lotto sales were down some 7 percent compared to the previous fiscal year because of fewer rollovers. Introduction of the "Fame & Fortune" instant game, and features such as Zinger, are helping keep total lottery sales near the record levels of last year.

Q. What's caused the drop in Lotto sales?

A. Experience here and in other states shows that many players only try for big jackpots. Many do not buy tickets until the top prize grows to \$10 million or more. Last year the jackpot reached \$10 million or more 14 different times. This level was reached only four times in Michigan in the first 10 months of this fiscal year.

Q. Will Michigan change its Lotto game?

A. To provide more net revenues for support of K-12 schools, Michigan constantly evaluates all its games and attempts to make changes necessary to keep Lottery products fresh and exciting to players.

For submitting the first question leading to this column, Louis LaLonde will receive 50 "Fame & Fortune" tickets. Note: When duplicate questions are received, that with the earliest date stamp upon arrival as Lottery Central wins. In case of a tie, the winner is selected by random drawing.

If you have a question not yet covered in these monthly columns, send it to "Winners Circle," Michigan Lottery, P.O. Box 38077, Lansing, MI 48909.

Talk AND Listen

A pastor-grandfather had stopped to talk with some pre-school children on the playground. He knelt down to their eye-level; something he always did. "They can see your face rather than your legs," he'd say. He talked and listened for what seemed too long a time.

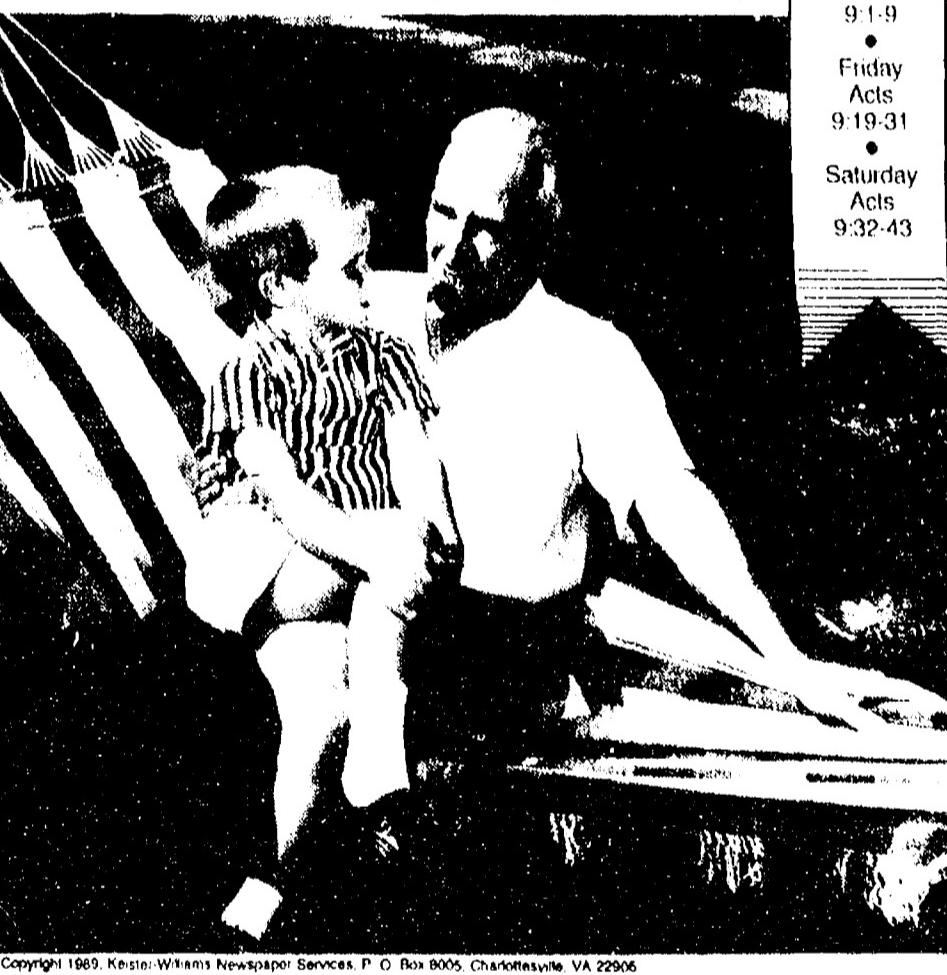

"Do you think they know or will remember what you talked about?" his son asked, somewhat skeptical of his use of time.

He smiled and then made a statement that should never be forgotten:

"It's not what you talk about that's important; what's important is that you talk and listen."

Having reared nine children successfully, perhaps he knew what he was talking about.

because they are not of the world, even as I am not of the world." (John 17:14). The more the Christian becomes like Christ, the more the world expresses hatred. As the prayer of Jesus Christ to the Father is fulfilled, it brings the hatred and wrath of the world upon us.

Christian should not fear the hatred, wrath and vengeance of the world, but rather the underlying evil which causes it. The Psalmist understood this, "The LORD shall preserve thee from all evil: he shall preserve thy soul." (Psalm 121:7).

The question arises, how does the Christian respond to hatred from the world? Jesus answers this by His prayer, "I pray not that thou shouldest take them out of the world, but that thou shouldest keep them from the evil." (John 17:15). The more we become like Christ, the more strange and peculiar the world will view us.

"Wherein they think it strange that ye run not with them to the same excess of riot, speaking evil of you." (1 Peter 4:4). "But all these things will they do unto you for my name's sake, because they know not him that sent me." (John 15:21). We must remember, "Wherewithal shall a young man cleanse his way? by taking heed thereto according to thy word." We should be able to respond, "Thy word have I hid in mine heart, that I might not sin against thee." (Psalm 119:11).

Resource Review

By Bruce Patrick
Conservation Officer

Because sunrise and sunset times are such an important part of present day hunting regulations, I thought it might be useful if they were made available to hunters in this area. These times were extrapolated from the 1989 Old Farmer's Almanac and are accurate on the Grayling-Rosecommon line of longitude. Mio and Kalkaska will vary by a few minutes earlier and later respectively.

Beef Roulades

1 Sirloin steak, cut into quarters and pounded thin
1 Large dill pickle, cut into quarters
2 c. Water
2 Beef bouillon cubes
8 Small carrots
1 10 oz. Pkg. lima beans

Place one speck pickle on each piece of meat. Roll up, enclosing ends and tie with string or fasten with toothpick. Dust rolled meat with flour and brown on all sides in a little oil. Add water and bouillon cubes and simmer about 1½ hours. Add carrots and limas and simmer another 30-45 minutes until vegetables are done. Serves 4.

For ice labored here, for many a year
It was up to us to get the work done
But though we labored hard at times
There was always time for fun

Verse or Worse

By Joseph D. Murphy

Camp Retirees Party

We gather each year to drink a beer
To greet old friends of yore
To look upon the familiar scenes
Of Camp Grayling once more

A little poker game was no cause for shame
If we had our work done on time
Maybe in our little games
You might win or lose a dime

Old George the boss was sometimes cross
But he saw to it the work got done
The sight of his little chevy coupe
And it was back to work on the run

Every one on the crew had a job to do
And we saw to it the job got done
But we also had time to be good friends
To share both tears and fun

If you needed a tool as a general rule
Clair Smith was the man to see
He made you sign on the dotted line
You got nothing there for free

Jim and Bob held the Electricians job
Bill Krage was the plumber
Red, Roland and Dee ran the Cats
And Larry nailed the lumber

At the old ammo dump we had to hump
For we had no fork lifts in those days
We had to lift each box by hand
And carry it away

Once each year we gather here
to see old friends again
For every face now missing
We feel sadness and pain

I'd like to say if I may
It's great to see your smiling faces
I hope and pray when we meet next year
That there'll be no empty spaces

A Look At Our Past

28 YEARS AGO

September 15, 1961

Russell Bruce Carlson, 35, Engineering Superintendent of the Crawford County Road Commission, died Friday, September 8, at the Lovells Township brine well near Kellogg's Bridge from injuries suffered from a fall from the brine storage tank. He was alone at the time.

Mr. and Mrs. Bruce Smith and the Bill Stewarts were golfing

Saturday with the Bear Archery group that plays the Traverse City Country Club course and Mrs. Smith made a hole in one on the 160-yard 16th hole.

The turkey shoot and chicken barbecue put on jointly by the Grayling Kiwanis and Sportsman's clubs last Sunday was deemed an unqualified success, as between three and four hundred people turned out for the afternoon's events.

There is a wise personage waiting in the background to give you the guidance and understanding you need. Just ask.

PISCES

Feb. 19-Mar. 20

Your attention turns to working on ways and means to acquire an object of beauty and lasting value.

Don K. Gothro was among five persons honored by the Michigan Municipal League at its 88th Annual Convention held September 7, 8 and 9, at the Statler Hilton Hotel in Detroit. Mr. Gothro, former Mayor of Grayling and past league president was honored for his service to municipal government.

Mrs. Vila Margaret Stillwagon, who moved to Lovells as a small child and lived most of her life there, died at St. Joseph Hospital in Flint on September 6, as the result of injuries suffered in an automobile accident that occurred on Labor Day near Davison home.

Robert LaMotte, Charles Fick and Clare (Skip) Madsen installed the first Grayling Area Jaycee litter barrel in the AuSable River shortly after the group received permission from the Department of Conservation. The club later installed six additional barrels between Grayling and Wakeley's Bridge for the betterment of the area.

For two weeks the high school football squad has been working out in preparation for the opening football game with Mancelona on the local field Friday.

Candidates are seeking positions on the starting eleven. With only five lettermen returning the battle for positions is wide open. Thompson, Burns, Babcock, Haifield and Smock are the returning veterans, while Bennett, Owens, Stevenson, Barber, Miller, Gildner and Kolka have had experience as reserves.

Those reporting for the first time are Hardwood, Hale, Brady, DeLaMater, C. Papendick, Mathews, Warden, Carlson, Knuth, Tiffin, MacCauley, R. Laurant, W. Laurant and Craft. To fill the shoes of Clark, R. Thompson, LaChapelle, Gierke, Hatfield, Kolka and Sidman, who are in various branches of the service, will be a difficult job.

Four letter winners have dropped out of school and Wheaton

rifle, and they were ready to go on actual firing range. Roll call was at 8 o'clock. An almost 100 per cent attendance greeted the eye of skipper Lt. Ernest Larson, and although teeth chattered the boys managed to answer "here" when their name was called. The maneuver was carried out under regular army rules and regulations.

Miss Dorothy Dusenbury is to teach in the Frederic schools this year.

Miss Myrtle Starr is teaching the Richardson school on M-76.

Doodles from the Tall Timber

One day this last weekend, while relaxing between activities at a French and Indian War re-enactment, I witnessed a scene that reaffirms the lack of knowledge regarding plants that are toxic to the human body. Few people are not aware of poison ivy or poison sumac and the resulting rash that may result from contact with it. But many, I'm certain, are not aware of other plants that can cause extreme discomfort or even death.

The part of the plant I saw in the hands of a child was White baneberry (*Actaea pachypoda*). Some call it dolls eyes. Not only are the white berries with the single black spot on their ends toxic, but the sap from the plant may be

as well. Keep in mind that Dutchman's breeches, Jack-in-the-pulpit, Bloodroot, Mayapple, Marsh marigold, Horsetail and Black nightshade are all poisonous or toxic in some way and while they may be nice to look at, it pays to avoid eating or physical contact with them.

For those of you who like to raise flowers, be aware that Monkshood (*Aconitum napellus*) and Larkspur (*Delphinium cheelanthum*) have been

recognized as being poisonous. Hyacinth, Narcissus, Autumn crocus, Star-of-Bethlehem, Lily-of-the-valley and snowdrops are all poisonous in one way or another. Also remember there isn't any antidote for plant poisoning.

...

Last week we talked about gun safety and sighting in your rifle. I hope you took every word on gun safety to heart. Hunting is one of the safest sports going, with proper gun use we can make it even safer. How I envy you young hunters just starting in. You have so many great days in the woods ahead of you. Most of mine are

behind me now but as long as I can make it I'll be out in the deer woods somewhere when deer season rolls around.

Remember hunting is a sport that has rules the same as any other sport. In ball games they have umpires and referees to see that the rules are followed.

Mike McNamara, of Rt. 4 Box 4838, Grayling, won the \$50 prize out of 152 entries for week #2 of our football contest. He got 16 of 20 right beating out Marle St. Germain, Julie Fagan, Don Messenheimer, Laura Stephenson, and Mike Brady, who all got 15 right.

Leaders in the Overall Winner contest after two weeks are: Marie St. Germain 32; Mick McNamara, Mike McNamara 31; Carol Conklin 30; Julie Fagan, Steve Fick, Mike Brady, Rick Lindsay, Heidi Mead, Warren Galvani, and Mike Beckwith all with 39.

Weekly Winner

1. Write down your prediction for game number 1 on entry form.
2. Write down the advertiser's name on entry form for game number 1.
3. Fill out the rest of the entry form this way including the two tie-breakers (your prediction on the total points scored by both teams in games 1 & 20).
4. Return the entry form by 5 p.m. Friday to the Avalanche. CONTEST RULES
5. The person with the most correct picks wins \$50 from the Avalanche.

Overall Winner

New this year will be an overall winner at the end of our season. Here's how it works. The Avalanche Football Contest will run 15 straight weeks. The person with the most correct picks at the end of 15 weeks will win \$50 and have bragging rights as the wisest football person in Crawford County.

It's important to turn your picks in every week. Example: Joe Blow turns his picks in the 1st week and gets 18 of 20 right. The 2nd week he forgets to turn his picks in. Susan Smart turns her picks in the 1st week and gets 15 of 20 right. She turns her picks in the 2nd week and gets 13 of 20 right. After 2 weeks she's ahead of Joe Blow 23-18 in the contest for overall winner.
